July 8, 2020

Have you heard the news? IEGA is OPEN and we can't wait to welcome your child back to class and camp!

During the 12-week forced closure, we worked hard to develop stringent operational policies and procedures, which would allow us to bring back staff and students into a safe and healthy environment, and that would align themselves with both the CDC's Youth Programs and Camp Readiness and Planning Tool and the California Department of Public Health's COVID-19 Interim Guidance for Day Camps. We are pleased to report that, over the past four weeks, we have been successfully operating using these new protocols and have received high praise from so many parents who feel confident in the health and safety practices that have been put into place. AND several of these parents are medical professionals, including doctors and nurses, who serve in our local community. But the best part of all is that students and staff are back doing what they love!

If you haven't already, we invite you to go to our website where you can read all about our new policies and procedures, as well as watch an informative video about what coming to class at IEGA looks like each day. You will also find information there about SpotTV, the new closed circuit, live streaming video system, currently being installed, which will enable socially distant viewing for parents right from their phone, tablet or computer.

As you begin to decide how your family will return to activities this summer, as all of us continue to managed life during this continuing global health crisis, we hope that you will explore the opportunities available at IEGA to resume physical activity and exercise for your child. And remember, please don't hesitate to give us a call or send us an email if you have any questions. We are always more than happy to take the time to talk and fill in any gaps in information.

We look forward to seeing you back in the gym very soon!

Gymnastically Yours,

Katie Willis
